

Entry Level Engineer(s)

Transformation Systems, Inc.

TSI, a successful DoD contractor with proven history of providing executive solutions within the government sector, is seeking to identify qualified Professionals for future contingent opportunities within the DoD environment in the Metro DC area.

Transformation Systems Engineer – Support Subject Matter Systems Engineers and Leadership on DoD projects involving acquisition, contract deliverables, leadership support, survey analysis and process management planning and execution.

- Support the analysis of business processes, procedures and routines; communicate systems configuration as required.
- Perform technical reviews for enterprise sustainment.
- Conduct engineering processes required to perform continual service improvement activities.
- Provide program, systems engineering, and acquisition support as required.
- Evaluate technical reviews and assessments of DoD programs.
- Maintain objective insight into programs' requirement performance and other technical metrics, schedule, risks, engineering management, production, integration, and other engineering discipline health and status.
- Perform analysis and generation of high quality technical reports and presentations.

Requirements:

- Valid Secret Clearance preferred
- Demonstrated experience in the application of engineering principles and procedures.
- BS/BA Engineering, Organizational Psychology, Mathematics or Science(s) required. MS preferred.
- 2-3 years of experience in systems engineering, development, configuration, specifications, and program management required.

TSI offers a very competitive compensation and benefits program. Please apply at www.transformationsystems.com or email your resume, security clearance status and compensation requirements to jobs@transformationsystems.com.

About TSI: Founded by leadership author and executive consultant Dr. Marta C. Wilson, Transformation Systems Inc. (TSI) is a management systems engineering company that helps military and civilian leaders within the defense community achieve their extremely challenging goals in ways that are most efficient, effective and responsive. TSI provides enterprise transformation solutions, applying industrial and systems engineering principles and practices to the realm of organization design. Our team is comprised of highly motivated and insightful experts in the fields of engineering, psychology, math, science, business and evaluation. We are thought leaders with a passion to make a difference. Transformation Systems, Incorporated is an Equal Employment Opportunity employer.
