

**Transformation Consultant /Strategic Management Support
Secret Clearance Required**

Transformation Systems, Inc.

TSI, a successful DoD contractor with proven history of providing executive solutions within the government sector, is seeking to identify qualified **Transformation Consultants** for future contingent **Strategic Management Support (SMS)** opportunities within the DoD environment.

Transformation Consultant

The Transformation Consultant assists in the design, development and application of executive solutions in management systems engineering for the successful implementation of strategies, plans, initiatives and metrics for our Department of Defense clientele.

- Develop proficiency in the TSI Solution Set by participating in ongoing corporate training opportunities.
- Learn to lead client leaders under the guidance and direction of TSI senior leaders.
- Collect, analyze and portray data from various client organizational assessments and other sources.
- Create professional executive documents using MS Office and similar tools.
- Apply passive and active listening skills to capture key information in interviews and group meetings.
- Document the current state of key client processes; develop and execute process improvements.
- Manage time, energy, and results on complex client projects and deliverables.
- Facilitate client groups to mediate conflict, resolve issues and problems, and generate products.
- Conduct body of knowledge research, analysis, and synthesis relevant to current client opportunities.
- Maintain transformation momentum by keeping the client on track and focused through effective project management.
- Provide an appropriate level of client support in execution of transformation tasks.

Successful candidates will have:

- 2 – 5 years' professional experience.
- Strong preference for knowledge in DoD acquisition policies.
- DoD Secret security clearance.
- Bachelor's Degree in Business Management, Engineering Management, Industrial/Systems Engineering, Engineering, Math, Statistics, Science, Physics, or Industrial/Organizational Psychology from an accredited college or university.
- Training in applied industrial/organizational psychology, industrial and systems engineering, business administration, human capital planning, strategic planning, organization development, engineering program/project management or Military experience is highly desirable.
- Strong interpersonal, analytical, and problem-solving skills.
- Superior written communication skills, the ability to define solutions and implement a complex deliverable.

Please apply by emailing your resume, security clearance status and compensation requirements to jobs@transformationsystems.com.

About TSI: Founded by leadership author and executive consultant Dr. Marta C. Wilson, Transformation Systems Inc. (TSI) is a management systems engineering company that helps military and civilian leaders within the defense community achieve their extremely challenging goals in ways that are most efficient, effective and responsive.
