

1-HOUR TRAINING REINFORCEMENT SESSIONS

NEED A QUICK REFRESH?

Training reinforcement extends the learning environment beyond the classroom to reengage participants with relevant content on a continual basis. Each element integrates seamlessly to create a powerful learning experience that accounts for the complexities of adult learning theory. These components aid participants in recall and application in the face of competing demands post-training, and helps to sustain improved performance long after the training event is complete.

CHOOSE FROM THE FOLLOWING TOPICS

1. Leadership Effectiveness and Potential (LEAP)
2. Leadership Effectiveness and Potential (LEAP) App
