

# 1-HOUR TRAINING REINFORCEMENT SESSIONS

LEAP with Transformation Systems, Inc.

## NEED A QUICK REFRESH?

Training reinforcement extends the learning environment beyond the classroom to reengage participants with relevant content on a continual basis. Each element integrates seamlessly to create a powerful learning experience that accounts for the complexities of adult learning theory. These components aid participants in recall and application in the face of competing demands post-training; and helps to sustain improved performance long after the training event is complete

**COST: \$1,000**

## ORDER A TRAINING REINFORCEMENT SESSION
